

# Electronics and Smart Devices at Summer Camp

Here are guidelines on acceptable use of electronic devices during program hours. Electronics will be kept with staff for failure to comply with our rules for devices.

## DO

- Keep in backpack
- Notify staff if needed for Medical reasons
- Keep on silent

## DON'T

- Have devices in pockets or on person
- Use devices for games or videos during program hours
- Call or text child during program hours

If you are concerned about contacting your child at any point during camp hours, please let us know and we will find the best solution for you and your child to communicate. We as staff cannot monitor what is being said, watched, or happening on campers' devices. It is important to remind your child that these items need to be kept in their backpacks. We understand the desire to track your students if their device has location availability. These items may be on but kept in backpacks. Please also remember that you can check the Procure app to see when your child was signed in or out of the program and real time communications.

**Thank you from all camp staff!**

If you have concerns or questions about contacting your child please contact Senia Chavez at [schavez@manhattanparks.org](mailto:schavez@manhattanparks.org) or 815-478-3324.
